

CNN Academy

EMPOWERING THE NEXT GENERATION OF STORYTELLERS

From Atlanta to Abu Dhabi, we bring the newsroom to the classroom, giving participants direct access to CNN's top correspondents and an insider's understanding of what it takes to thrive as a multimedia journalist.

OUR PRODUCTS

Simulation training events

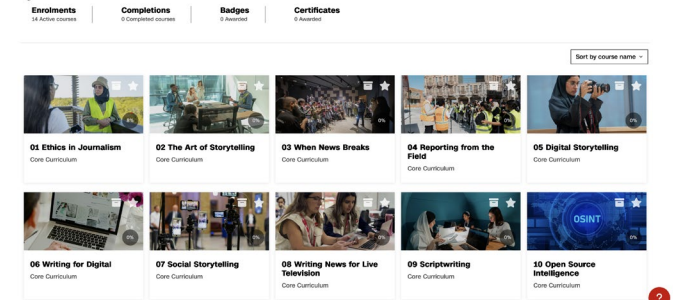

CNN Academy's simulations immerse emerging journalists in realistic, fast-moving newsroom scenarios. Participants practice reporting, verification, interviewing and editorial decision-making under pressure, building the confidence and judgment needed to produce accurate, compelling journalism.

CNN Academy Hub

The CNN Academy Hub is the online home for self-paced learning featuring insights from CNN's correspondents and producers. With modules on core newsroom skills, ethics in journalism, open-source reporting and AI, it helps learners build knowledge at their own pace.

My courses

Workshops

CNN Academy's workshops deliver practical, focused training from current CNN journalists and industry specialists. Covering key skills such as digital storytelling, writing, verification and mobile storytelling, each session combines newsroom expertise with hands-on exercises.
